

Hopex IT Business Management

 Type: Self-Paced eLearning / Trainer-led  Level: Beginner & Advanced

 Duration: 6 Hours / 2 Days  Prerequisites: None

COURSE INFORMATION

This course provides the methodological basics and best practices necessary for Enterprise Architects & IT Portfolio Managers to successfully use Hopex IT Business Management solution.

Hopex ITBM enables and supports business transformation by aligning your company's IT roadmap to its key strategic business objectives. You will be able to design business architecture and create a strategic roadmap where you can plan future business capabilities and their related IT investments. You will optimize your current IT assets for costs, lifecycle and agility and standardize your technology portfolio and mitigate obsolescence risks.

LEARNING GOALS

At the end of this course, you will:

- Analyze IT assets' strategic significance.
- Gain insights regarding upcoming obsolescence.
- Gather costs of IT assets.
- Rationalize the inventory.
