

# Hopex IT Portfolio Management

 **Type:** Self-Paced eLearning / Trainer-led  **Level:** Beginner & Advanced

 **Duration:** 4 Hours / 1 Day  **Prerequisites:** None

## COURSE INFORMATION

This course provides the methodological basics and best practices necessary for IT Portfolio Managers to successfully use Hopex IT Portfolio Management.

You will be able to get full visibility on your IT landscape by building a complete inventory of IT assets (applications & technologies), optimize your current IT assets for costs, lifecycle and agility and standardize your technology portfolio to mitigate obsolescence risks.

## LEARNING GOALS

At the end of this course, you will:

- Analyze IT assets' strategic significance.
- Gain insights regarding upcoming obsolescence.
- Gather costs of IT assets and rationalize the inventory.
- Use AI to manage application performance.
