

Hopex Reporting

 Type: Self-Paced eLearning  Level: Advanced  Duration: 6 Hours

 Prerequisites: Working knowledge of Hopex

COURSE INFORMATION

Your Hopex repository can be a connection-maker in your organization and an impact analysis powerhouse. Applying an outcome-driven approach, data may be leveraged to raise understanding, participating in successful communication to stakeholders, and efficiently support decisions.

LEARNING GOALS

At the end of this course, you will:

- Use Hopex's main reporting capabilities, including instant reports and Excel import & export.
- Explore the MetaModel, the functioning of Hopex for content structure, on which queries and reports rely.
- Explore TreeSets, and Report DataSets for your context.
