Hopex Customization

Type: Self-Paced eLearning **Level:** Advanced **Duration:** 4 Hours

Prerequisites: Working knowledge of using Hopex on modeling projects

COURSE INFORMATION

> Hopex answers to a wide range of use cases for Enterprise Architecture and Governance Risk and Compliance, in a way universally applicable to all organizations (through its profiles, manipulated notions and functionalities). At the same time, Hopex is an adaptable tool, allowing you to reflect your context and specificities, to best answer your business needs, and ease adoption in your organization.

LEARNING GOALS

At the end of this course, you will:

· Abstract the MetaModel, the functioning of Hopex for content structure on which the platform relies.

· Adapt the MetaModel for your context, diving into more technical detail.

· Further personalize your solution regarding common customizations.
