

Hopex Intranet Portal

 Type: Self-Paced eLearning  Level: Advanced  Duration: 4 Hours

 Prerequisites: Working knowledge of using Hopex on modeling projects

COURSE INFORMATION

This course will allow you to communicate effectively, using Hopex intranet portal, based on the Hopex 360 template. You will be able to bring visibility on Hopex repository information and interconnections and use Hopex 360 as a useful tool for impact analysis.

LEARNING GOALS

At the end of this course, you will:

- Dive into the functioning of the website portal.
- Explore the MetaModel, the functioning of Hopex for content structure, on which the portal relies.
- Adapt the Hopex 360 template for your context.
