

# Hopex Privacy Management - Version 5

 Type: Trainer-led  Level: Advanced  Duration: 1 Day

 Prerequisites: Knowledge of personal data protection and current regulations

## COURSE INFORMATION

The General Data Protection Regulation (GDPR) creates a common legal framework for data protection laws across the EU, which is designed to give control of personal data back to data subjects by imposing strict rules on those hosting and processing this data, anywhere in the world. In this course, you will learn how to use Hopex Privacy Management and the embedded methodology to manage your GDPR compliance initiative. Hopex Privacy Management gives you the right tools to understand how your organization complies with the regulations, where to implement changes and how to produce documents by regulators.

## LEARNING GOALS

At the end of this course, you will:

- Handle Personal Data and Data Subjects Categories, Security Measures, Data Transfer Safeguards.
- Describe Data Processing Activities specifying Legal Basis, Data subject's rights, contractual agreements, among others.
- Conduct pre-assessments and Data Protection Impact Assessments (DPIA) to identify data protection risks and implement recommendations to increase the compliance level.
- Manage data breach records.
